## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: The arguments in the appeal brief filed 9/30/05 are considered to be persuasive. The prior art does not specifically disclose the specifics of claims 2 and 5. Further the prior art does not disclose the limitation "generating an interpolated luminous intensity of a group of pixels for an interpolated image by calculating, on the basis of these weights, a weighted average of the interpolated results", used in combination with all of the other limitations of claims 1 and 6. More specifically, the prior art does not teach the limitation of "generating an interpolated luminous intensity of a group of pixels for an interpolated image by calculating, on the basis of these weights, a weighted average of the interpolated results" as supported in pages 6 and 7 of applicant's specification where the applicant specifically discloses the specific equations VI and VII for calculating the interpolated luminous intensity  $I^{k+\Delta}(x)$  and  $I^{k+\Delta}_m(x)$ .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
